

Job Title: Saudi National Graduate Engineers

Salary: Competitive

Number Required: 3 (September 2012)

Job Details

Atkins are recruiting 3 graduates into our Khobar office – mechanical, civil & electrical.

As a provider of multi disciplined technical services to the built environment Atkins in the Middle East is committed to design excellence in the delivery of first class solutions which combine innovation, imagination and best practice.

We are recruiting three Saudi National graduates (civil, mechanical, & electrical) into our Infrastructure business, where you would be working on industrial, highways & port mass infrastructure projects for example.

We encourage vision, problem-solving, ambition, enthusiasm and drive. We recognise that people are the key to our success, and our graduates are the future of our business. We ensure that we provide you with a varied workload and encourage you to extend yourself in order to reach your potential.

Responsibilities

You will be based in our Khobar office but it is likely that an element of travelling will be required for your role. Specific responsibilities will depend on the team you are recruited into and the project(s) you are assigned to, so more details will be provided at final interview stage. Your role and the Graduate Development Programme will include relevant professional experience such as design, project management and site experience, supplemented with formal in-house and external training events.

Requirements

- Minimum degree classification of 2:1 (60% or above) in a Civil, Mechanical or Electrical Engineering degree. A further specialist (such as a MEng or Masters degree) would be an advantage.
- No more than two years relevant work experience
- Drive and self motivation to achieve professional status with the relevant international professional institution
- Drive to continuously develop your technical & behavioural skills
- Ability to lead and work as part of a team
- Ability to apply technical knowledge in analysing problems and creating solutions
- Ability to work and communicate effectively in English (verbal & written) within multidisciplinary teams
- Ability to work on your own initiative
- Ability to adapt to changing environments
- Ability to multi-task and deliver to tight deadlines
- Ability to influence others
- Strong attention to detail and ability to make sound judgements

Rewards & Benefits

- Competitive salary
- Discretionary annual bonus scheme
- Medical & Life Insurance cover
- 22 days' holiday
- Employee Assistance Programme
- Bi-annual reviews
- Structured development to meet professional status with your institution
- Professional support through:
 - Graduate Induction
 - Graduate Development Centre
 - Portfolio of training and development events
 - Allocated Mentor
 - Line Manager
 - Quarterly & annual reviews
 - Professional Membership costs covered by Atkins

About Atkins

Atkins is renowned for the expertise, experience and excellence of its people – and professional qualifications are at the heart of this reputation. Join our Graduate Development Programme and we'll offer you all the support, training and practical experience you need to achieve your chosen qualification and develop a career that will make the most of your potential. The programme offers an all-encompassing approach to developing the skills, knowledge and behaviours you need to enjoy a rewarding career at Atkins. But, rather than us simply dictating how you develop, we'll put you in the driving seat. We offer a flexible and adaptable approach that allows you to guide your own development and determine your route through the programme, ultimately leading to professional status with your institution.

It's very much a two-way commitment: if you work hard to achieve your development goals, we'll work hard to provide you with all the support and guidance you need. This includes producing a development plan to track your progress to achieving your qualification, with regular reviews carried out along the way. It's your career so it's up to you to determine the specific route you'll take through the various elements of the programme. But you are not alone – there are people to assist and support you, such as your line manager and your mentor. A large part of your personal development will be achieved by working on real-world projects and reflecting on those experiences, supplemented by a range of courses, seminars and specific graduate events. These provide a great opportunity to network across Atkins; develop your business and interpersonal skills, as well as helping to identify your strengths and areas for development.

How to Apply:

If you are interested in applying to the programme please visit the link below and complete our short online application. This allows us to assess all applicants consistently and fairly before we progress you through to the next stage of the selection process.
